

CASE STUDY

 **LOCATION:** Belfast, Northern Ireland

Car Park safety improved for Belfast Shopping Centre

A car park extension at one of Ireland's biggest shopping centres led to a requirement for a vehicle and pedestrian safety protection system, to be installed within a narrow area of ground.

Our team provided a BS: 7818 compliant Pedestrian Guard Rail system along with our UltraProtek Armco barrier system, offering a combined solution that matched the client's brief. By working closely with the

main contractor we were able to complete the works with minimal disruption to traffic or pedestrians needing access to the new car park.

Emtek have over 20

years' experience in this field, developing and implementing safety solutions for industrial, retail and commercial environments.

Vision

It's our aim to provide each customer with quality products and services that are competitively priced, readily available and delivered with excellent levels of service.

We believe our customers should have a great experience when dealing with us and we commit to 5 key service offerings that help us fulfil our vision:

Dedicated Customer Support
On-site Demo
Products Ex-Stock
Prompt Delivery
Installation

Contact us today to see how we can best assist with your project.
