

NATIONWIDE TECHNICAL SUPPORT

We are a leading supplier of flooring materials across Ireland. As part of our commitment to our clients we provide regular technical training and materials awareness sessions on the best mix, application and use of our high performance products.

Our Materials Support Team work throughout Ulster, Leinster, Connaught and Munster, supporting contractors, builders and commercial flooring specialists to help ensure the optimum use of the materials on what are often premium level, time critical projects.

PRIMER

Designed to minimise pinholes and promote the adhesion of UltraFloor smoothing underlayments, UltraFloor Prime IT Multi-surface Primer is a moisture tolerant, water based acrylic primer, sealer and bonding aid, suitable for porous and non-porous substrates. Available in a handy 5L bottle, this material is easy to use and has a pigmented pink colour for effective coverage control.

PRIME IT Primer for porous & non-porous substrates

- Moisture tolerant
- Enhances adhesion
- Reduces pinholing
- Coverage: 200m² at 3:1 dilution
- Can be used as a curing agent
- 5L bottle control.

SMOOTHING UNDERLAYMENTS

We provide a range of single and two-part polymer modified smoothing underlayments suitable for all commercial flooring applications. These market-leading materials are protein free, low odour and offer superior flow. Providing rapid setting and fast drying times, our smoothing underlayments ensure schemes are completed quickly and easily, enabling you to meet project deadlines and avoid disruption.

Level IT TWO

High flow, two component smoothing underlayment

Level IT TWO is an all-purpose, mid strength, two-part smoothing underlayment. With exceptional flow, this material is very easy to apply to a range of commercial and domestic flooring projects.

- Superior flow
- Can be used over most common subfloors
- Moisture tolerant
- 2-12mm thickness
- Coverage: approx 5m² at 3mm
- 2.5 hour set time
- 20kg bag and 4L bottle

Level IT BOND

Semi-rapid, all purpose smoothing underlayment

This material is a rapid curing, two-part smoothing underlayment. With exceptional adhesion characteristics, Level IT Bond is suitable for use over a wide variety of subfloors and substrates, including old adhesive residues, and for use in both domestic and commercial flooring projects.

- Foot traffic in as little as 90 mins
- Bonded floor coverings after 4 hours
- Superior flow
- Moisture tolerant
- Coverage: approx 5m² at 3mm
- 2-12mm thickness
- 20kg bag and 4.6L bottle

Level IT SUPER 30

Rapid setting & fast drying
smoothing underlayment

Designed for fast turnaround projects, Level IT Super30 is our rapid setting and fast drying smoothing underlayment, which is open to foot traffic in as little as 30 minutes. It can be used on most floor coverings including sheet vinyl, LVT, linoleum and rubber and breathable textiles.

- Ready to receive unbonded floor coverings after 45 mins & bonded coverings in 90 mins
- Use over most common subfloors
- Compatible with underfloor heating
- Coverage: approx 6m² at 2mm
- 2-15mm thickness
- 20kg bag and 4L bottle

Level IT RENOVATE

Semi-rapid, fibre reinforced,

Suitable for the refurbishment of existing internal and external floors to depths between 3-40mm, Level IT Renovate is fibre reinforced with flexible properties and can also be used as a light duty wearing surface. It's excellent flow properties make it ideal for a wide range of flooring substrates.

- For internal and external floors
- Foot traffic in as little as 2-2.5 hours
- Ready to receive floor coverings after 4 hours
- Use over most strong and stable subfloors
- Fibre reinforced with flexible properties
- Compatible with underfloor heating
- Simply mix with water
- 20kg bag

REPAIR & FINISHING COMPOUNDS

Our high strength and rapid drying repair and finishing compounds can be used alongside our range of UltraFloor smoothing underlayments in both domestic and commercial projects. These materials are ideal for removing defects and ridges and smoothing over screw-heads and joints between sheets of plywood.

Feather IT

Rapid drying finishing compound

Offering excellent adhesion characteristics, UltraFloor Feather IT is a rapid drying, very fine particle, high polymer cementitious compound that is suitable for application to a wide variety of substrates. It's perfect for use on flooring grade mechanically fixed plywood as well as for filling in gouges, depressions and improving smoothing underlayment applications.

- Rapid setting & drying
- Adhesion without a primer
- Compatible with underfloor heating
- Coverage as a feather edge: 22m²
- 3mm feather edge
- Foot traffic after 30 minutes
- Simply mix with water
- Handy 5kg tub

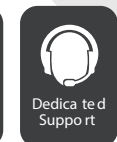

Patch IT

Rapid drying finishing compound

UltraFloor Patch IT is a rapid drying, fast setting and hardening cementitious repair mortar for internal applications. Its slump free characteristics make it ideal for repairing small cracks in walls and floors, concrete stair edges and for creating coves and ramps.

- Slump free
- Rapid setting
- Smoother to trowel
- Coverage: 3.2m² at 2mm
- 1-20mm thickness
- Set time 20 minutes
- Simply mix with water
- 10kg tub

MOISTURE PROTECTION & ANCILLARIES

We offer a high-performance material designed to provide protection against subfloor moisture. Our rapid curing priming membrane, DPM IT helps you avoid damage and costly repairs.

DPM IT Rapid curing priming membrane

Designed to provide protection against subfloor moisture and also as a primer for bonded screed installations, UltraFloor DPM IT is a two component, solvent free epoxy resin system for use as a surface damp proof membrane and as a screed bonding aid (primer) for industrial flooring applications.

- Surface DPM
- Two-part epoxy resin system
- Fast cure system
- 98% RH floor moisture tolerance
- Pot life 45-75 minutes
- Cure time 5 hours
- 5kg or 10kg units

Mixing Bucket

Our handy mixing bucket is ideal for use with our UltraFloor materials on busy sites

- 25L capacity
- Transparent
- Complete with litre scale and metal handle
