

NATIONWIDE TECHNICAL SUPPORT

We are a leading supplier of tiling materials across Ireland. As part of our commitment to our clients we provide regular technical training and materials awareness sessions on the best mix, application and use of our high performance products.

Our Materials Support Team work throughout Ulster, Leinster, Connaught and Munster, supporting tiling contractors, builders and specialist providers to help ensure the optimum use of the materials on what are often premium level, time critical projects.

PRIMER

Our primer helps provide exceptional bond and enhanced adhesion across multiple substrates.

ProPrimer

Advanced polymer primer for exceptional bond and multiple substrates

- Can be used on walls or floors
- Foot traffic after 30 minutes
- Designed for both porous and non-porous substrates
- Can be used internally and externally
- Enhances adhesion and reduces substrate porosity
- Compatible with underfloor heating
- Available in 1L & 5L bottle

ADHESIVES

We offer a range of ready mixed pastes and cementitious powder tile adhesives suitable for a variety of tile types and substrates for wall and floor applications. Our materials are easy to use and offer great workability.

ProFlex SP Rapid Set Flexible Tile Adhesive

ProFlex SP is a single part, rapid setting, flexible adhesive for wall and floor tiles. It is specially formulated with enhanced adhesion and flexibility, making it ideal for areas where slight movement or vibration can occur. Classified as S1 in accordance with EN 12004, it has the high level of deformation for greater tolerance to movement.

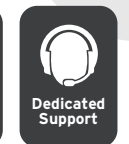

- Ideal for use with porcelain, mosaic, natural stone and glass tiles
- S1 flexibility for timber floors, swimming pools and underfloor heating systems
- 3-20mm bed thickness
- 60 minutes pot life
- 2.5 hours set time
- 20kg bag
- Colours: White & Grey

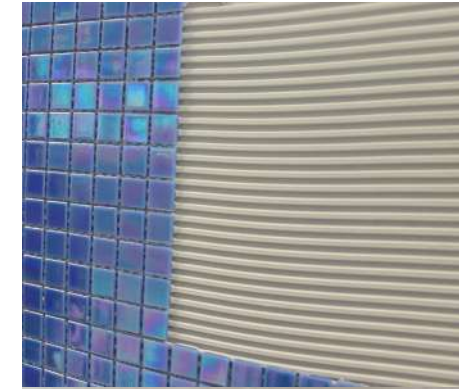

ProFlex SPES Standard Set Flexible Tile Adhesive

Our bestselling tile adhesive ProFlex SPES, is a single part, standard setting, flexible adhesive for wall and floor tiles. It is specially formulated with extended workability, enhanced adhesion and flexibility, making it ideal for areas where slight movement or vibration can occur. Classified as S1 in accordance with EN 12004 it has the high level of deformation for greater tolerance to movement.

- Extended open time
- S1 flexibility for timber floors, swimming pools and underfloor heating systems
- 3-20mm bed thickness
- 2 hours pot life
- 16 hours set time
- 20kg bag
- Colours: White & Grey

ProRapid RS Flexible Rapid Set Tile Adhesive

Specially formulated with enhanced adhesion and flexibility for use with ceramic, porcelain and natural stone tiles, ProRapid RS is a single part, rapid setting, flexible adhesive for wall and floor tiles. It's a polymer modified adhesive suitable for use with most common substrates and is able to take light foot traffic within 3 hours of installation depending upon temperature and substrate.

- Ideal for use with porcelain, mosaic and natural stone tiles
- Flexible properties for use in wet areas and with underfloor heating
- 3-16mm bed thickness
- 60 minutes pot life
- 2.5 hours set time
- 20kg bag
- Colours: White & Grey

ProFlex S2 Fibre Reinforced Flexible Tile

UltraTileFix ProFlex S2 is a single part, rapid setting, flexible, fibre reinforced adhesive for wall and floor tiles. Specially formulated with FibreBond technology, this material contains a unique blend of polymers, which results in a superior bonding performance in combination with an extended range of tile types in wet or dry conditions.

- Ideal for use with all tile types including brick slips, resin backed and quartz
- Ultimate S2 flexibility for timber floors including plywood and chipboard overlays, swimming pools and underfloor heating systems
- 3-20mm bed thickness
- 60 minutes pot life
- 3.5 hours set time
- 20kg bag
- Colours: White & Grey

GROUTS & SILICONES

Our UltraTileFix grouts and silicones are suitable for a vast array of tile types and applications, including natural stone, porcelain, conglomerate and ceramic tiles. With an extensive range of colours available, these products provide a premium finish to every project.

ProGrout Flexible Tile Grout

Suitable for joint widths up to 20mm, ProGrout Flexible has been designed for areas where movement or vibration is likely. Polymer has been added to the formulation to increase flexibility and to provide a virtually impermeable set. ProGrout Flexible is packaged using the latest plastic packaging technology, offering you greater product protection and prolonged freshness.

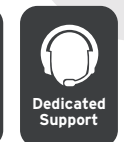

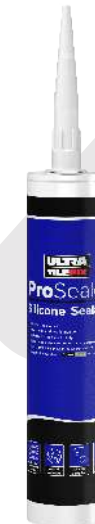

- Designed for use with all tile types
- Available in wide range of colours: White, Cream, Bahama Beige, Jasmine, Limestone, Taupe, Brown, Silver Grey, Mid-Grey, Grey, Charcoal & Black
- ColourShield technology for vibrant, durable finishes
- Wash down with minimal effort
- 30 – 60 minutes pot life
- 12 hours hard set
- Available in 3kg & 10kg bag

ProSealer Silicone Sealer

UltraTileFix ProSealer is a neutral cure silicone sealant that provides a highly flexible and water resistant seal to a wide variety of sanitary joints. It is easy to apply, FDA approved and boasts excellent adhesion without the need to prime. The colour range of this silicone has been designed to complement UltraTileFix ProGrout Flexible.

- Neutral cure product
- Low odour, no slump formulation
- Enhanced body and elasticity
- Ideal for all kitchen and bathroom applications
- Colour match finishing for tiling installations
- Resistant to UV due to ColourGuard technology
- Mould resistant
- Internal and external use
- Size: 310ml

ANCILLARIES

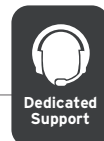

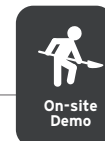

It's important to have the right gear when working on-site and we have developed a super handy mixing bucket to help make every mix as consistent as possible.

Mixing Bucket

Our handy mixing bucket is ideal for use with our UltraTile materials on busy sites.

- 25L capacity
- Transparent
- Complete with litre scale and metal handle
